

Open-top cans

If anyone CAN - we CAN!

Open-top cans

Open-top cans are securely and tightly closed by a seamed/flanged closure. Depending on requirements, various tear-open options are available: flange lid, steel/aluminium easy-open lid with ring-pull, or a peel-off foil lid. Typical applications include dry foods and powder products, as well as chemical technical filling goods. For re-closure after first opening, the tin can optionally be fitted with an overcap made of plastic or tinplate.

The product features of open-top cans „made by Pirlo“ at a glance:

- Various lids (aluminum lid, foil or steel tear-off lid) for standard sizes in various volumes
- Plastic lids in different colours available
- Also available varnished inside
- Sealing machine required
- Customised printing and embossing (lid) possible

Quick Start Can

Specially designed for use without a closure – ideal for dry filling goods.

- Open-/Tear-off top opened up
- Plug-lid as base
- Base (top) can be easily pushed in manually – no extra mechanical effort needed

If you have any questions about Open-top cans our experts will be happy to help. Special can sizes are possible on request.
